

Sparkeos Deck

A New Kind Of Social Network

Sparkeos.io

Social media is the largest web catalyst

70% Of internet users are actively using social media

2.8B MAU on social networks

A third of internet users are on Facebook

Instagram has grown exponentially into 1B MAU

User generated content has 7X more engagement than brand generated

Sparkeos combines web2.0 with web3.0

Providing a decentralized
social media platform
developed on the EOS
blockchain and IPFS

Our Vision

Bring back freedom of speech

New type of social media

Blockchain based
social media

Censorship resistance

Content cannot be
modified or deleted

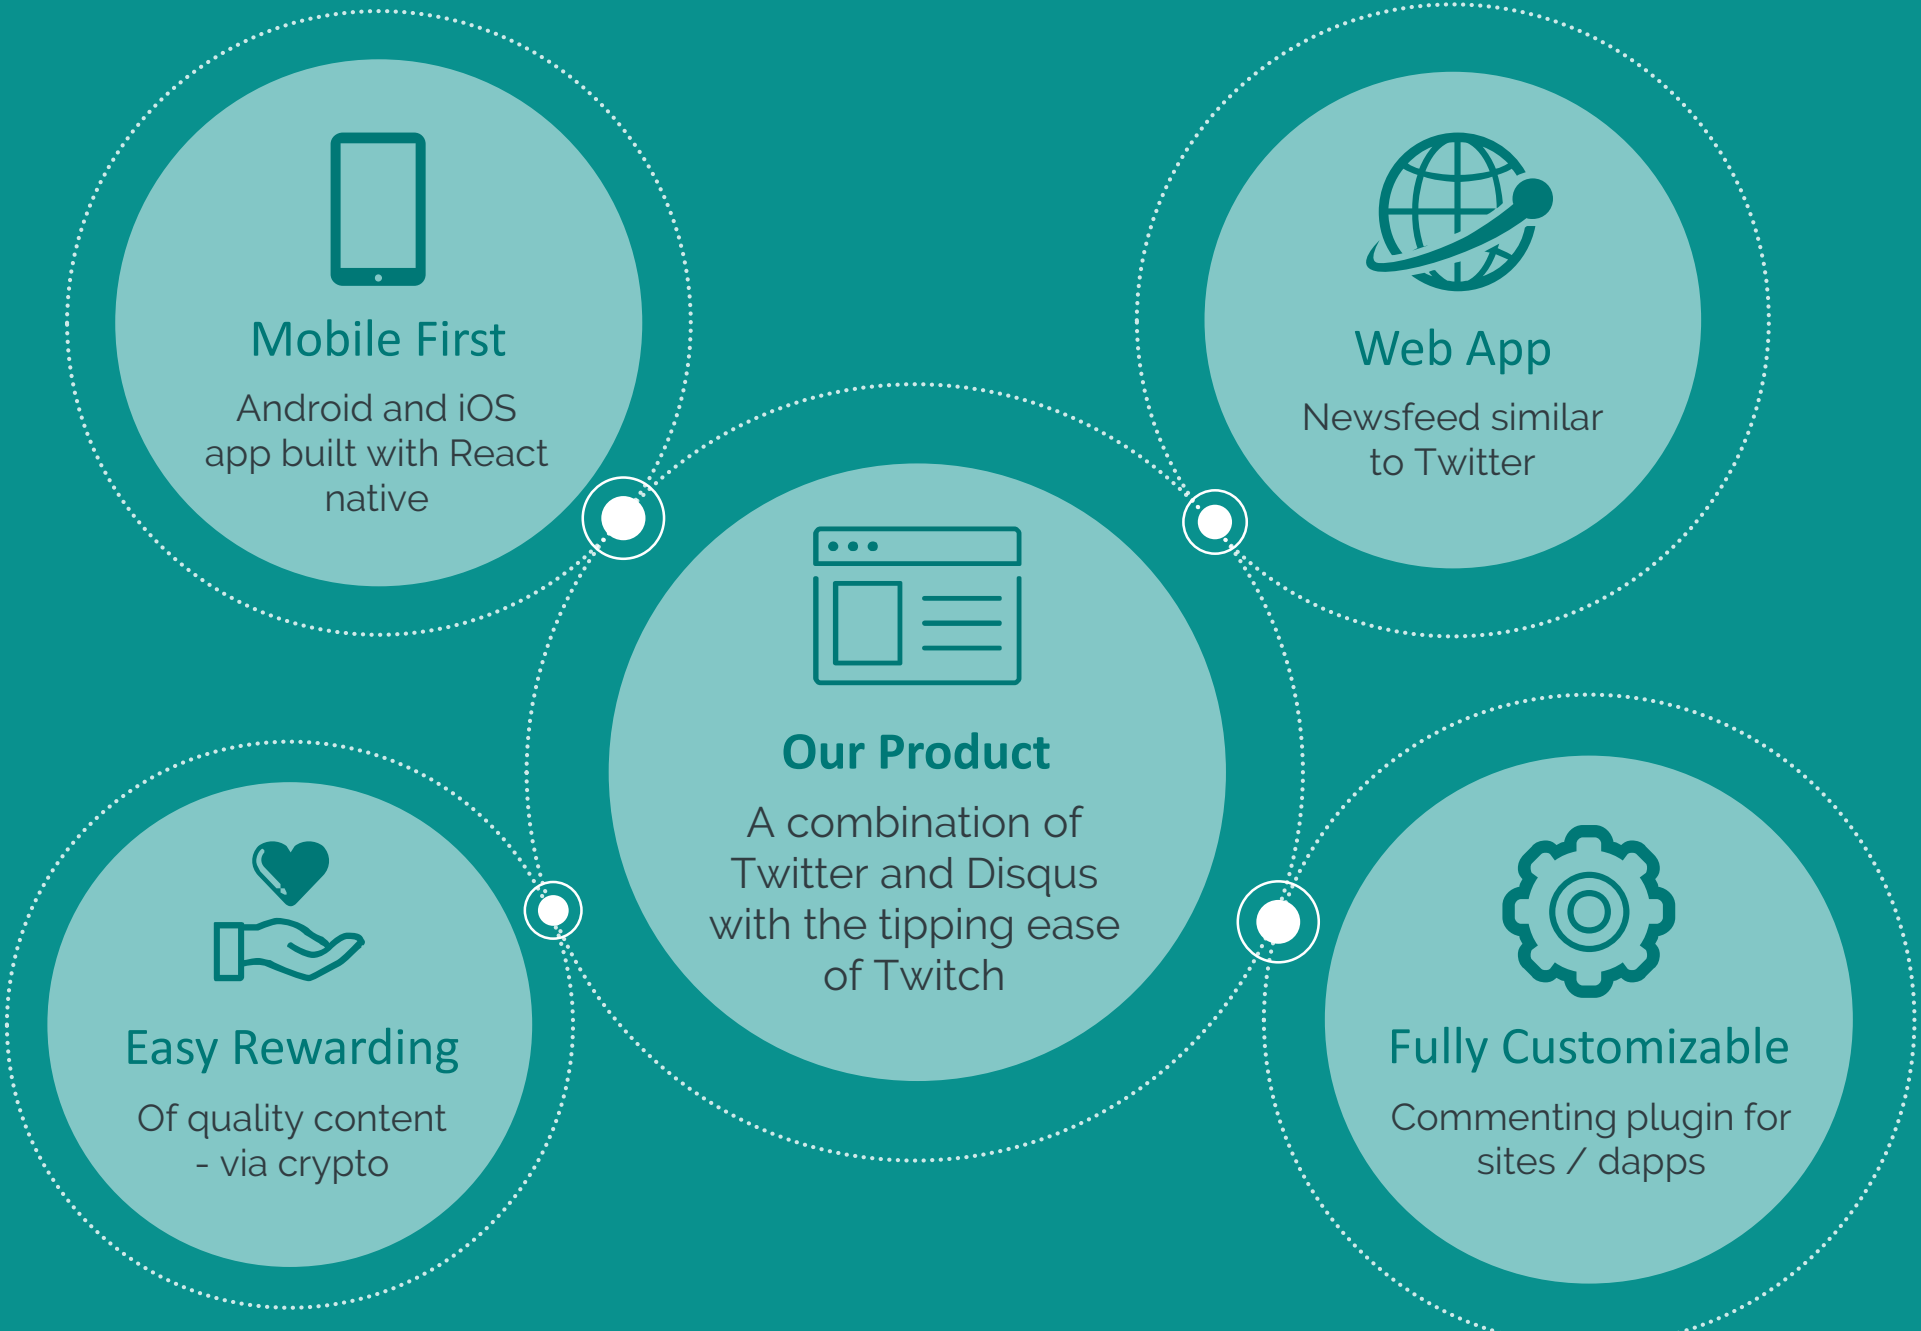

Elevate transparency

Open and public
access to data

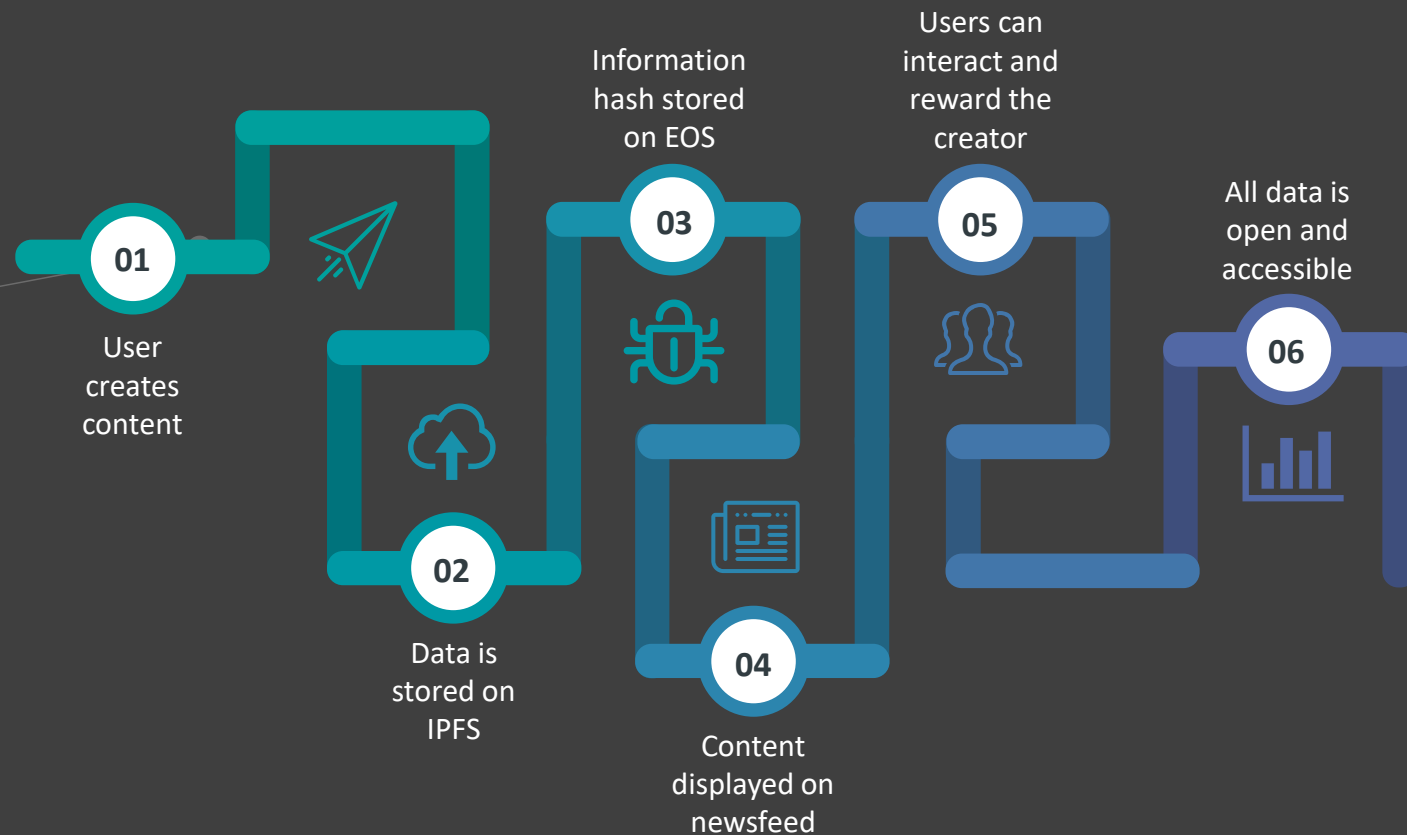

Freedom of tips

Money as a form
of speech

Ecosystem / Technology

- The EOS blockchain is a perfect fit. With no TX fees, and built-in accounts
- Information hash is stored on the blockchain. Data itself is stored on IPFS
- Open-source caching service, to maintain decentralization
- Tipping mechanism via crypto

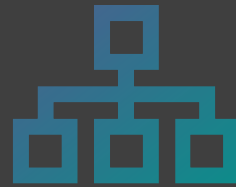

Our Goals

Achieving a critical mass of users

Making Sparkeos the de-facto standard for social media on top of EOS

Providing a scalable platform

A user friendly plugin that can be integrated into other apps

Serving as a growth catalyst

Supporting blockchain growth and widespread use

Our Team

Omri Levi

CEO

Entrepreneur
economist and
business analyst.
B.A Economics

Aviad Ganon

CTO

Expert developer.
Former CTO, [Spot.IM](#).
B.S software
Engineer

Daniel Rozner

V.P R&D

Software developer
expert and startup
consultant. Former
V.P R&D, [Unbotify](#)

Adam Levi

Technical Advisor

Blockchain expert.
Founder and CTO,
[DAOstack](#).
PhD Theoretical Physics
